SEALED — DO NOT OPEN

THE CIPHER — DECODED

The planchette spelled:

KEYS UNDER BOILER 7

THE EVIDENCE CHAIN

1 · THE KEYS. The first EVP capture (02:14 AM, 412 Hz) speaks of copper keys taken 'down where water sleeps' — the hydrotherapy vault, where Head Nurse Evelyn Croft was found.

2 · THE WARNING. The second capture (02:18 AM, 528 Hz) warns: 'Do not open the drainage grates!' The EMF log agrees — the Central Drainage Grate reads 8.9 mG, off the scale, the single critical anomaly in the building.

3 · THE PLACE. Boiler 7 stands over the drainage system beneath Ward 4. The keys the presence guards — the keys to the locked hydrotherapy vault — lie beneath it, exactly where Patient #402's impossible knowledge and the caretaker's dead furnace (02:00 AM) were already pointing.

RESOLUTION

Recover the copper keys from beneath Boiler 7 with iron salt barriers intact and the field team present. The presence at Blackwood is bound to the vault and its keys: what was locked away in 1924 stays locked — and the haunting of Ward 4 is recorded, evidenced and CLOSED. Case #G-103 — RESOLVED.
